StreamNovo

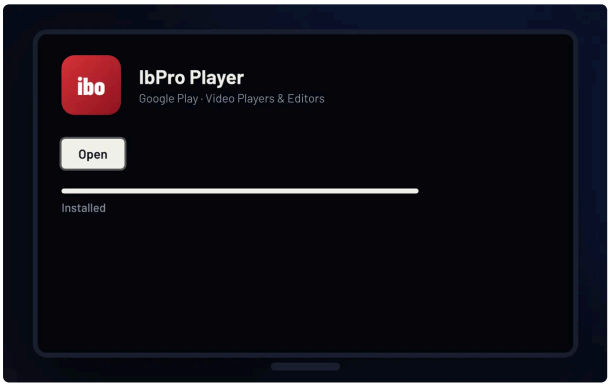

SETUP GUIDE · IBO PLAYER PRO · ANDROID TV AND GOOGLE TV

SET UP IBO PLAYER PRO ON ANDROID TV

4 steps · about 10 minutes

Before you start

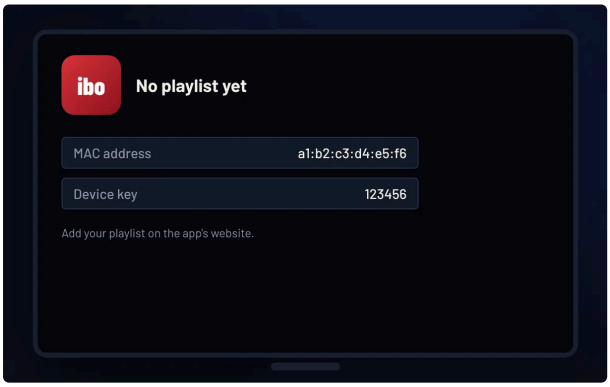

- Your StreamNovo login: **server URL, username and password**, or your M3U link
- Your Android TV and Google TV, connected to the internet
- About 10 minutes

Step 1 of 4

Install the app

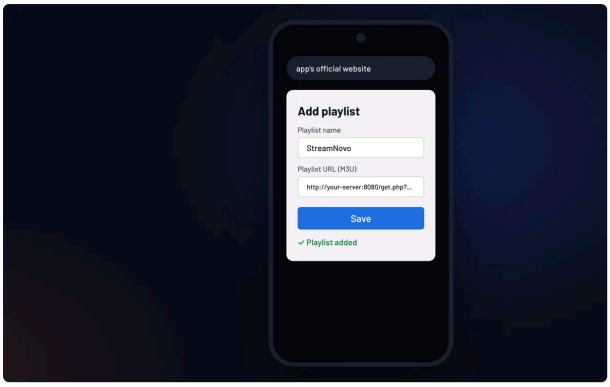

Open **Google Play**, search for **IbPro** and install **IbPro Player**. Then select **Open**.

Step 2 of 4

Note your codes

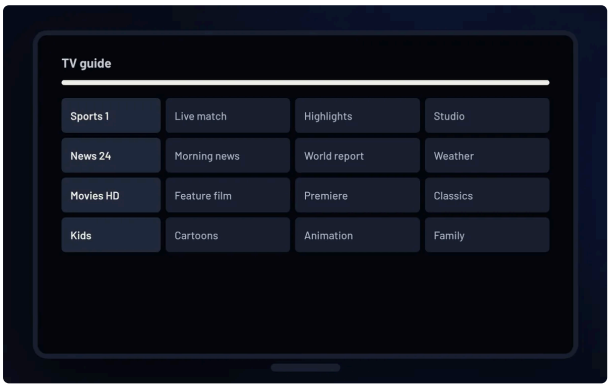

Select **Allow**. The app shows a **MAC address** and a **device key**. Take a photo of the screen.

Step 3 of 4

Add your playlist

On your phone or computer, open the app's **official website**, sign in with the **MAC address and device key**, then add your **StreamNovo M3U link** from your email.

Step 4 of 4

Start watching

Restart the app on your TV and select **StreamNovo**. The app is free for 7 days, then it asks for a one-time activation.

Good to know

- In Google Play, the app is listed as "IbPro Player".
- IBO Player Pro is free for 7 days. After that, the app asks for a one-time activation, paid to the app developer, not to StreamNovo.
- The MAC address and device key in the video are examples. Use the ones shown on your own screen.
